Announcement for New Sales Offices Establishment for finance business in Cambodia

We would like to announce that GL Finance PLC (mentioned as GLF below), our group's motorcycle finance in Cambodia, has established 2 new sales offices on the 24th of June 2013.

With the alliance formed with HONDA NCX, a company in Cambodia that manufactures and sells Honda branded motorcycles, the new sales offices have been established in HONDA SENG CHENG TY and HONDA TENG KIM HENG which are opened as authorized Honda motorcycle dealers in Phnom Penh last year. With the above establishment of new sales offices, total domestic sales offices in Cambodia amount to 13 offices.

Expansion of sales network has been achieved from the continuous and rapid economic growth of Cambodia as new dealers also are increasing in the capital city, Phnom Penh. GLF is the only company in Cambodia that can provide motorcycle leasing services in authorized Honda motorcycle dealers with a 95% of market share. GLF has begun operations in all dealers within the capital city and will continue to establish new offices along with the opening of new authorized Honda motorcycle dealers.

New Cambodian staffs of GLF have been assigned to the new offices and have started operations with high hopes after going through training for motorcycle service.

As the only motorcycle finance company in Cambodia, dealers have high hopes towards the new needs for motorcycles that GLF has created. Our group will continue to contribute to the growth of grass root economies and increase the corporate value of our group by proactively expanding the finance business throughout the ASEAN region.

Thank you.
