## **New Money Transfer Service Available for Financial Business in Cambodia**

We would like to announce that a new money transfer service has been available for financial service of GL Finance PLC. (GLF), our finance business subsidiary in Cambodia.

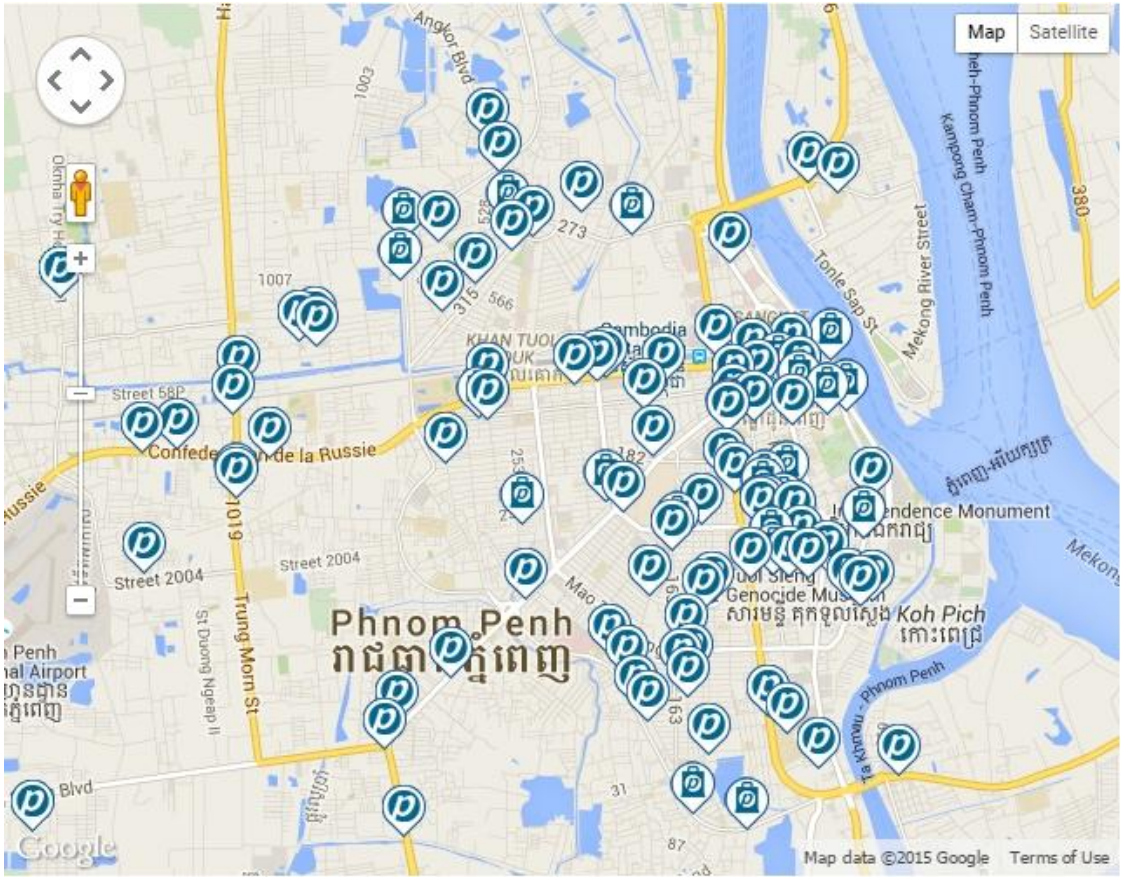

GLF has been rapidly expanding their business since last year in order to maximize their superiority where they provide the first financial service in Cambodia and have the exclusive lease contract for HONDA motorcycle. In addition to new motorcycle, they have aggressively developed new products, currently providing financial services for KUBOTA agricultural machine and solar panel. Customers who are financed by GLF will pay back to them every month. For further future business growth, it is essentially important to improve customers' convenience in payment system for their service.

The new money transfer service is "pay&go" which provides automatic payment machines in every city of Cambodia. Customers can pay for various bills including cellular phone via machines.

GLF's customers will become more convenient when they can use the pay&go service in addition to our existing money transfer service partner, Wing. We expect to accelerate further expansion of GLF's business by cooperating this new service.

The maps on the next page show current areas and places where pay&go service is available. Although areas and places with the service provided have been increasing day by day, they will help you to understand their current availability.

Places where pay&go service is available in Phnom Penh

Areas where pay&go service is available throughout Cambodia

Thank you.
