Zeavola Resort, a luxury resort hotel owned and managed by our group resumed its business operation on 1 December 2021.

We are glad to announce that Zeavola Resort, a luxury resort hotel in Phi Phi islands owned and managed by our group resumed its business operation on 1 December 2021. Since April 2020, Zeavola Resort had closed its business for a long time along with lockdown and closure of border due to the COVID-19 situation. In current booking status, its occupancy rate has recovered up to more than 50%, Zeavola Resort made a really wonderful restart. In cooperation with Tourism Authority of Thailand, Zeavola Resort will be introduced on TV and internet.

Thai government is now preparing to open border with neighbor countries targeted for vaccinated individuals. In addition to traditional travel demand from wealthy foreigners, travel demand from "Go TO" campaign based domestic travelers are highly expected. Zeavola Resort has a high repeat rate of guests so expects many repeat guests to return.

Zeavola Resort as a sustainable resort has won many global hotel awards. Also because of its uniqueness, Zeavola Resort has achieved the highest praise in Phi Phi islands from internet travel sites including TripAdvisor for a long time.

Refer to past news release for details regarding its sustainable actions and winning awards.
